Wrightington Resident Courses

Wrightington Upper Limb SpR Teachings

Winter 2022 – Summer 2023

Conference Centre, Wrightington Hospital

Wrightington, United Kingdom

Chairperson

Prof. Adam Watts, Wrightington, United Kingdom

General Information

Introduction

This free educational programme is provided by the Upper Limb Unit of Wrightington Hospital in collaboration with the International Bone Research Association (IBRA). Wrightington Wigan and Leigh Trust is proud to be a IBRA Training centre welcoming visitors from around the world for educational and research Fellowships. The aim of this series is to provide additional teaching in upper limb elective and trauma surgery to regional trainees in North-West England working towards the FRCS (T&O) examination. The training will be delivered by Upper Limb Fellows from Wrightington Hospital, supported by the Wrightington Upper Limb Unit Faculty. Hot food will be available at the start of evening and teaching will include lectures, case discussion and group discussion. Numbers will be limited so we advise you to register early.
We cannot take bookings for the whole programme but put the dates in your diary, we will send out invitations ahead of the meetings and ask you to register your attendance individually. We hope you will find this a valuable educational opportunity and a useful networking event.
We are very grateful to IBRA and the Regional Training Leads for their support.

General Information

Chairperson

Prof. Adam Watts, Wrightington, United Kingdom

Target Audience

Orthopaedic Surgical Trainees

Venue

Conference Centre, Wrightington Hospital
Hall Lane, Appley Bridge, Wigan, WN69EP

Time

Food & Refreshments	6:00 - 7:00 pm
Teaching	7:00 - 8:30 pm

Organized by

Prof. Adam Watts and Miss Zoe Lin

Registration & Information

Jackie Richardson. Wrightington Hospital

Program

Session I: Thursday, December 8, 2022

Theme:	Hands - Osteoarthritis & more
Objectives:	To address key learning point in hand surgery required for FRCS (T&O) and for start of general orthopaedic consultant career.
Fellow conveners:	Miss Kohila Sigamoney, Miss Kasia Studnicka & Miss Shruti Raut
Consultant:	Mr Sumedh Talwalker

Session II: Thursday, January 19, 2023

Theme:	Elbow for the FRCS
Objectives:	To address key learning point in elbow surgery required for FRCS (T&O) and for start of general orthopaedic consultant career.
Fellow conveners:	Mr Dani Rotman, Miss Zoe Lin & Mr Tim Hirst
Consultant:	Mr Andy Wright & Prof Adam Watts

Session III: Tuesday, April 25, 2023

Theme:	Common shoulder conditions
Objectives:	To address key learning point in shoulder surgery required for FRCS (T&O) and for start of general orthopaedic consultant career
Fellow conveners:	Mr Robert Piggot & Mr Kiran Ramesh
Consultant:	Mr Michael Walton

Session IV: Wednesday, June 7, 2023

Theme:	Upper Limb Trauma
Objectives:	To address key learning point in upper limb trauma surgery required for FRCS (T&O) and for start of general orthopaedic consultant career
Fellow conveners:	Miss Pamela Boekel
Consultant:	Mr Matthew Ricks

General Information

Wrightington Hospital, Wrightington, United Kingdom

Wrightington Hospital is a centre of excellence for Orthopaedic Surgery. We have over thirty Consultants and cover all of the sub specialties within Orthopaedics. We perform more Orthopaedic surgery than any other Hospital in the North West of England. The Hospital has a long history of innovation and research, built on the legacy created by Professor Sir John Charnley. He is most famous for pioneering hip replacement surgery in the 1960s, but also designed the clean air operating theatre and a system for handling surgical instruments, which reduced infection rates during surgery. We continue to build on his legacy today and are proud of our low infection, revision, re-admission and complication rates.

All of the above means that our patients receive the best possible care and clinical outcomes.

In December 2015 we opened a new state-of-the-art Orthopaedic Centre at Wrightington Hospital. The Centre cost £18.1m to build and contains:

- Two new wards with a total of 56 beds, most of which will be single room en-suite accommodation
- A new admissions unit
- A four bay operating theatre complex with seven space recovery area

The centre has revolutionised the way we care for patients and allowed us to make even further advances with innovations such as our enhanced recovery programme.

The quality of the build and the environment it creates for patients and staff has been nationally recognised; our design of four bedded bays and single rooms will now be used across the NHS for other similar Hospital Developments.

We have ten hand and upper limb surgeons and one plastic surgeon who perform arthroscopy, joint replacements, trauma and sports injury reconstruction, brachial plexus and peripheral nerve surgery. As a tertiary referral centre we receive a large number of complex cases from other surgeons around the country. We are one of the only units in the country to have dedicated elbow surgeons. The surgeons are supported by dedicated specialist physiotherapists and hand therapists to get the best outcome for our patients.

IBRA International Bone Research Association

IBRA – a unique international network in research and continuing education

Our aim is to promote the exchange of professional knowledge, provide highly specialized medical training and encourage research as well as new scientific developments.

Core activities

- Global grid of IBRA Training Centers
- Courses, workshops and webinars
- International scholarship program
- Research grants

IBRA Membership – Your future is in your hands!

Take advantage of our innovative hands-on training courses and connect with like-minded experts worldwide.

Membership

IBRA Basic Membership

The gateway to the IBRA affiliation

- Worldwide networking (Members and Training Centers)
- Regular updates on events
- Access to our database of materials and recorded webinars
- Free of charge

IBRA Full Membership

Shaping our organization in various functions

All Basic Membership benefits plus:

- Prioritized access to IBRA research grants and scholarships
- Considerably reduced course fees (50%)
- Voting rights at the General Assembly
- Development opportunities within IBRA (e.g. speaker, course chair, Training Center)

IBRA International Bone Research Association

IBRA Virtual Campus

Flexible, self-paced learning for busy healthcare professionals

The IBRA Virtual Campus features:

✓ Recorded webinars
✓ Online courses
✓ Instructional videos
✓ Scientific articles
✓ Case discussions

Virtual Campus

All IBRA Members enjoy access to the Virtual Campus through the member area.

Not part of our affiliation yet?

Join us today and take advantage of the benefits of the IBRA Basic Membership:

- Worldwide networking
- Regular updates on events
- Access to the Virtual Campus
- Free of charge
