IBRA International Bone Research Association

Program

IBRA Guest Society Symposium

"IBRA meets EACMFS and ESTMJS"

On the occasion of EACMFS Congress 2018
18 - 21 September 2018, Munich, Germany

From Strasbourg 2007 to Munich 2018:

Consensus update and future perspectives in condylar traumatology

September 19, 2018
Munich, Germany

Chairman
Andreas Neff, Marburg, DE

Scientific Committee
Christophe Meyer, Besançon, FR
Edward Ellis III, San Antonio, Texas, USA

EUROPEAN ASSOCIATION FOR CRANIO - MAXILLO - FACIAL SURGERY

ESTMJS

Foreword

Dear colleagues and friends,

it is my great pleasure to invite you to Munich in 2018, to participate in the IBRA Symposium "IBRA meets EACMFS and ESTMJS" on Wednesday, 19th September 2018, on the occasion of the 24th EACMFS meeting, which will take place in Munich, Germany, from 18th – 21st September 2018, which in 2018 will be a joint meeting with the ESTMJS annual meeting.

So, by now 6 years after the IBRA consensus conference on condylar fractures held in Marseille in 2012, our goal for Munich is to reach an up-to-date consensus on state of the art treatment of fractures of the condylar base, neck and head, based on online voting by both faculty and the participants. A high ranked international faculty will put a special focus on approaches, paediatric fractures and fractures directly involving the TMJ. These long standing and highly controversially debated topics were decided taking into account the more and more surgically oriented approach to a category of fractures, which traditionally have long been considered not to amenable to safe and stable osteosynthesis. We also want to discuss which among the many various and rapidly evolving technical ways to cope with these demanding fractures will allow best to restore TMJ functionality and to avoid adverse long-term sequelae to the TMJ.

Fees for attending to EACMFS sessions on Wednesday will allow full access to the IBRA symposium and vice versa during 19th of September. The EACMFS congress offers several social activities, such as e.g. an evening dinner at the famous "Munich Hofbräuhaus" scheduled for Wednesday evening. Looking forward to meeting you in Munich also on behalf of my co-chairmen Prof. Christophe Meyer and Prof. Edward Ellis III

Prof. Dr. Dr. Andreas Neff
Marburg, Germany

Official Language

The official event language is English. No simultaneous translation will be provided.

Wednesday – September 19, 2018

8:00 – 9:00	**Session I** **Consensus Update and Future Perspectives in Condylar Traumatology** **Part I:** **Basic considerations on up to date classification and biomechanics**	
8:00 – 8:05	Welcome and introduction: From Strasbourg 2007 via Marseille 2012 to Munich 2018 - consensus update and future trends in condylar traumatology	*A. Neff*
8:05 – 8:15	The condylar classification dilemma: is there a way out now for the future?	*A. Neff*
8:15 – 8:30	Dos and Don'ts in Biomechanics – lessons learned to avoid complications in the future	*Ch. Meyer*
8:30 – 8:50	Panel discussion, questions and answers Moderation: A. Neff	*E. Ellis III* *J. Ferri* *T. Iizuka* *J. Kleinheinz* *Andreas Kolk* *Ch. Meyer*
8:50 – 9:00	Consensus voting on Classification, Biomechanics and Complications (Update Marseille Statements)	*all*

Wednesday – September 19, 2018

9:00 – 10:00	**Session I** **Consensus Update and Future Perspectives in Condylar Traumatology** **Part II:** **Pediatric Fracture treatment**	
9:00 – 9:10	Pediatric condylar fractures – where should surgery go in the future?	*O. Güven*
9:10 – 9:20	Pediatric condylar fractures – the orthodontists' vision	*T. Peltomäkki*
9:20 – 9:40	Panel discussion, questions and answers Moderation: Edward EIlis III	*T. Iizuka* *O. Güven* *I. Iatrou* *Ch. Meyer* *A. Neff* *A. Kolk* *T. Peltomäkki*
9:40 – 10:00	Consensus voting on Pediatric Fractures (Marseille Statements and Case updates)	*all*
10:00 – 10:30	**Coffee break and visit of the EACMFS industrial exhibition**	

Wednesday – September 19, 2018

10:30 – 11:50	**Session II** **Consensus Update and Future Perspectives in Condylar Traumatology Part III:** **Disputation and Roundtable "Surgical versus non-surgical indications in condylar base and neck fractures"**	
10:30 – 10:42	Which indications for non-surgical therapy will be valid in the future?	*J. Ferri*
10:42 – 10:54	Which indications for surgical therapy will be valid in the future	*E. Ellis III*
10:54 – 11:20	Panel discussion, questions and answers Moderation: Ch. Meyer	*E. Ellis III* *J. Ferri* *T. Iizuka* *J. Kleinheinz* *A. Kolk* *A. Neff*
11:20 – 11:50	Consensus voting on surgical vs. nonsurgical indications (Update Base and Neck Cases and Marseille Statements)	*all*

Wednesday – September 19, 2018

11:50 – 13:00	**Session II** **Consensus Update and Future Perspectives in Condylar Traumatology Part IV:** **Disputation and Roundtable "Treatment of Condylar Head Fractures"**	
11:50 – 12:02	Condylar head fractures: why and how to treat non-surgically in the future	*J. Ferri*
12:02 – 12:14	Condylar head fractures: why and how to treat surgically in the future	*A. Neff*
12:14 – 12:40	Panel discussion, questions and answers Moderation: Ch. Meyer	*E. Ellis* *J. Ferri* *D. Hirjak* *J. Kleinheinz* *A. Kolk* *N. McLeod* *A. Neff*
12:40 – 13:00	Consensus voting on approaches in condylar traumatology (Update Head Cases and Marseille Statement)	*all*
13:00 – 14:00	**Lunchbreak at EACMFS exhibition**	

Wednesday – September 19, 2018

14:00 – 15:30	**Session III** **Consensus Update and Future Perspectives in Condylar Traumatology** **Part V:** **Roundtable "Approaches – Pros and Cons"**	
14:00 – 14:08	The intraoral approach: indications, limitations and complication rates	*G. Lauer*
14:08 – 14:16	The high submandibular/angular approach: indications, limitations and complication rates	*Ch. Meyer*
14:16 – 14:24	The retromandibular infraparotid and trans-parotid approaches: indications, limitations and complication rates	*J. Kleinheinz*
14:24 – 14:32	The anteroparotid transmasseteric approach: indications, limitations and complication rates	*G. Colletti*
14:32 – 14:40	Pre- and retroauricular approaches: indications, limitations and complication rates	*A. Neff*
14:40 – 15:10	Panel discussion, questions and answers Moderation: A. Neff	*G. Colletti* *E. Ellis III* *D. Hirjak* *J. Kleinheinz* *A. Kolk* *G. Lauer* *Ch. Meyer* *N. McLeod*
15:10 – 15:25	Consensus voting on Condylar Head Fractures (Update Head Cases and Marseille Statement)	*all*
15:25 – 15:30	**Closing remarks and adjourn of the IBRA Condylar Symposium/ ESTMJS Annual Meeting**	

IBRA International Bone Research Association

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-todate network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

General Information

Venue

Congress Center Munich City Gasteig
Rosenheimer Strasse 5
81667 Munich
Germany
https://en.gasteig.de

Additional Information

The EACMFS/ESTMJS meeting will be located in the "Gasteig", Munich's culture and education centre, which is home of the Munich Philharmonic Orchestra and was created as a place for musical events and meetings. The "Gasteig" is located close to the famous historical city centre and conspicuous on the right-hand riverbank of the river Isar. It can be easily reached via the urban-suburban commuter railway system and offers various hotels in direct reach of the congress venue.

Munich is very easy to reach, having direct suburban railway commuter connections with Franz Josef Strauß Munich International Airport to the venue in less than 45 minutes (S 8 goes every 20 minutes directly to Rosenheimer Platz viz. Gasteig). The weather during September before the opening of the "Munich Octoberfest" on September 22nd, which starts immediately the day after the EACMFS congress, is usually very good in an area which allows relaxation and strolling not only in the historical part of the city, which is one of the touristic highlights of Bavaria in southern Germany with many historical spots, museums, comfortable beer gardens, but also in the marvellous surroundings, including the Bavarian lakes and royal castles. As the "Octoberfest" will attract a lot of tourists, please make sure to make your hotel reservation well in advance. So visiting ESTMJS will offer a perfect opportunity also to attend to the European congress and to extend the visit to the famous Octoberfest.
