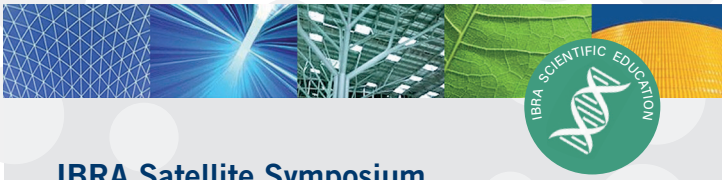
IBRA International Bone Research Association



IBRA Satellite Symposium

On the occasion of the 7th Triennial Meeting of the International Federation of Foot and Ankle Societies (IFFAS) 2022

Foot & Ankle Reconstructive Surgery: Osteotomies vs. Arthrodesis

April 29, 2022
Santiago de Chile, Chile

Time: 12:30-13:30h

Chairpersons:
Dr. João De Carvalho Neto, São Paulo, Brazil
Prof. Dr. Dr. Alexandre Leme Godoy-Santos, São Paulo, Brazil

IBRA International Bone Research Association

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-todate network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

Friday – April 29, 2022

Foot & Ankle Reconstructive Surgery: Osteotomies vs. Arthrodeses

Chairpersons: Dr. João De Carvalho Neto, São Paulo, Brazil
Prof. Dr. Dr. Alexandre Leme Godoy-Santos, São Paulo, Brazil

Faculty: Dr. Christian Bastias, Santiago de Chile, Chile
Dr. João De Carvalho Neto, São Paulo, Brazil
Prof.Dr. Dr. Alexandre Leme Godoy-Santos, São Paulo, Brazil
Prof. Dr. Dr. Victor Valderrabano, Basel, Switzerland
Dr. Gregorio Verschae, Santiago, Chile

12:30 – 12:32	Welcome	*J. Neto*
12:32 – 12:35	Introduction IBRA	*J. Neto*
12:35 – 12:45	Ankle Deformities/Osteoarthritis - Osteotomies	*V. Valderrabano*
12:45 – 12:55	Ankle Deformities/Osteoarthritis - Arthrodeses	*A. Godoy*
12:55 – 13:05	Foot Deformities/Osteoarthritis - Osteotomies	*G. Verschae*
13:05 – 13:15	Foot Deformities/Osteoarthritis - Arthrodeses	*C. Bastias*
13:15 – 13:30	Case Presentations and Discussion	*Moderated by J. Neto*
