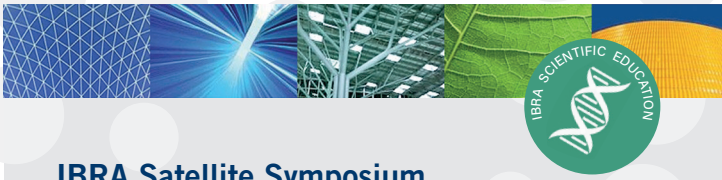
IBRA International Bone Research Association



IBRA Satellite Symposium

On the occasion of the 7th Triennial Meeting of the International Federation of Foot and Ankle Societies (IFFAS) 2020

Foot & Ankle Reconstructive Surgery: Osteotomies vs. Arthrodesis

April 23, 2020
Vina del mar, Valparaiso, Chile

Location: Auditorium Maria Luisa Bombal B

Time: 7:30 – 9:00 pm

Chairman:
Prof. Dr. Dr. Victor Valderrabano, Basel, Switzerland

IBRA International Bone Research Association

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-todate network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

April 23, 2020

Foot & Ankle Reconstructive Surgery: Osteotomies vs. Arthrodeses

Chairman: Professor Dr. Dr. Victor Valderrabano
SWISS ORTHO CENTER, Schmerzklinik Basel, Swiss Medical Network
Basel, Switzerland

Faculty: Dr. Christian Bastias, Santiago de Chile, Chile
Dr. Joao de Cavalho Neto, São Paulo, Brazil
Professor Dr. Dr. Alexandre Leme Godoy-Santos, São Paulo, Brazil
Dr. Gregorio Verschae, Santiago, Chile

Welcome	*J. de Cavalho Neto*
Introduction IBRA	*V. Valderrabano*
Ankle Deformities/Osteoarthritis - Osteotomies	*V. Valderrabano*
Ankle Deformities/Osteoarthritis - Arthrodeses	*A. Godoy*
Foot Deformities/Osteoarthritis - Osteotomies	*G. Verschae*
Foot Deformities/Osteoarthritis - Arthrodeses	*C. Bastias*
Case Presentations and Discussion	*Moderated by J. de Cavalho Neto*
