

IBRA International Bone
Research Association

IBRA Satellite Symposium

On the occasion of the 56^{ème} Congrès de la Société Française de Stomatologie, Chirurgie Maxillo-Faciale et Chirurgie Orale

Condylar Trauma 2021 – All problems solved?

Challenges and pitfalls in condylar traumatology

**September 29, 2021
Besançon, France**

Location: Palais de Congrès, Besançon
Time: 14:00 – 17:00h

Moderator
Professor Joel Ferri, Lille, France

Speaker
Professor Andreas Neff, Marburg, Germany
Dr. Aurélien Louvrier, Besançon, France
PD Andreas Müller, Basel, Switzerland

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-to-date network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

Condylar Trauma 2021 – All problems solved? Challenges and pitfalls in condylar traumatology

Moderator Professor Joel Ferri, Lille, France

Speaker Professor Andreas Neff, Marburg, Germany
Dr. Aurélien Louvrier, Besançon, France
PD Andreas Müller, Basel, Switzerland

Program

14:00 – 14:40	Challenges and pitfalls in pediatric condylar trauma	<i>A. Müller</i>
14:40 – 15:20	Challenges and pitfalls in high subcondilar/condylar neck fractures	<i>A. Louvrier</i>
15:20 – 16:00	Challenges and pitfalls in condylar head trauma	<i>A. Neff</i>
16:00 – 17:00	Panel discussion: Case presentations on complex condylar trauma	<i>All</i>
