Research Association

Program

IBRA Advanced Course
with pre-fractured specimen

The Tough Ones: Managing Fractures with Soft Tissue Injuries of the Hand, Wrist and Elbow

March 24 – 25, 2023
Denver, CO, USA

Chairperson:
Dr. Mark Baratz, Pittsburgh, PA, USA

Foreword

Dear Colleagues,

I'd like to invite you to join us in Denver CO for a novel course that will combine the principles and practice of fracture management with soft-tissue coverage.

We have an international faculty that will expand your understanding of surgical options and then assist you in performing fracture fixation with local and regional flaps. The course provides the unique advantage of using pre-fractured specimens with pre-operative imaging.

Join us Denver to expand your skill set in managing fractures of the elbow, wrist and hand with fracture stabilization and soft-tissue coverage.

Dr. Mark Baratz
Pittsburgh, PA

Faculty

Chairperson

Dr. Mark Baratz, Pittsburgh, PA, USA

Faculty

(in alphabetical order)

Dr. Mark Baratz, Pittsburgh, PA

Dr. Louis Catalano, Denver, CO

Dr. Fraser Leversedge, Denver, CO

Dr. Rainer H. Meffert, Würzburg, Germany

Dr. Gregory Rafijah, Irvine, CA

All speakers and chairpersons participating in this program are expected to disclose to the program audience all potential conflicts of interest that might introduce a bias in their presentations.

Friday – March 24, 2023

Location Hyatt Regency Aurora Denver 13200 East, 14th Place Aurora, CO 80111		
3:45 – 4:00 pm	Registration	
4:00 – 4:10	Welcome	
4:10 – 4:15	IBRA Introduction	<i>IBRA</i>
4:15 – 5:45 pm	Theory Session I: Hand and Wrist (90 min)	
4:15 – 4:30	PIP Fracture Dislocation: CRIF, ORIF or Reconstruction	<i>G. Rafijah</i>
4:30 – 4:45	P1 Base Fractures: Pins or Screws?	<i>M. Baratz</i>
4:45 – 5:00	Metacarpal Shaft Fractures	<i>R. Meffert</i>
5:00 – 5:15	Comminuted intra-articular DRF: Palmar, Dorsal or Bridge?	<i>F. Leversedge</i>
5:15 – 5:30	Soft Tissue coverage for the digits	<i>M. Baratz</i>
5:30 – 5:45	Case Review & Discussion	<i>All</i>
5:45 – 6:00 pm	Break & Refreshments	

Friday – March 24, 2023

6:00 – 7:30 pm	Theory Session II: Forearm and Elbow (90 min)	
6:00 – 6:15	Distal Ulna Fractures: ORIF vs. Distal Ulna Resection	<i>G. Rafijah</i>
6:15 – 6:30	Radial Head and Neck Fractures: Fix vs. Replace	<i>L. Catalano</i>
6:30 – 6:45	Olecranon Fractures: Fix vs. Resect	<i>R. Meffert</i>
6:45 – 7:00	Fractures of the Distal Humerus	<i>L. Catalano</i>
7:00 – 7:15	Soft Tissue coverage of the Elbow	<i>F. Leversedge</i>
7:15 – 7:30	Case Review & Discussion	<i>All</i>
8:00 pm	Networking Dinner	

Saturday – March 25, 2023

Location Science Care 19301 E 23rd Ave Aurora, CO 80011		
6:45 am	Departure to laboratory	
7:15 – 7:45 am	Registration & Breakfast	
7:45 – 7:50	Welcome	
7:50 – 8:00	Instruments, implants, technology	<i>Medartis</i>
8:00 – 9:30 am	Workshop I (90 min)	
8:00 – 8:45	Phalangeal Fractures - Fixation and Soft Tissue Coverage	<i>M. Baratz</i>
8:45 – 9:30	Metacarpal Fracture Fixation	<i>R. Meffert</i>
9:30 – 10:00 am	Coffee Break	

Saturday – March 25, 2023

10:00 – 12:15 pm	Workshop II: (135 min)	
10:00 – 10:45	Distal Radius Fracture Fixation (Volar and Dorsal Approach)	<i>G. Rafijah</i>
10:45 – 11:30	Radial Head Fracture Fixation	<i>L. Catalano</i>
11:30 – 12:15	Olecranon Fractures - Fixation and Soft Tissue Coverage	<i>F. Leversedge</i>
12:15 – 1:00 pm	Lunch	
1:00 – 3:45 pm	Workshop III: Pre-fractured Specimen (165 min)	
1:00 – 1:15	Pre-operative planning (based on patient data, x-rays and CT-scans)	<i>Group of 4 participants</i>
1:15 – 2:30	Difficult fracture treatment with pre-fractured specimens	<i>Group of 4 participants</i>
2:30 – 3:30	Review and discussion	<i>all</i>
3:30 – 3:45 pm	Summary and adjourn	

General Information

Dr. Mark Baratz, Pittsburgh, PA, USA

Organized by

IBRA - International Bone Research Association, Basel, Switzerland

Registration & Information

IBRA Administration Office

Hochbergerstrasse 60E, CH-4057 Basel

Phone: +41 (0) 61 319 05 05, Fax: +41 (0) 61 319 05 19

info@ibra.net, Website: www.ibra.net

Registration Fees

	Seminar & Workshop	Seminar only
IBRA Member	USD 320	USD 65
Non-Member	USD 640	USD 130
Resident		USD 110

Registration Fee includes

Lunch and coffee breaks

Registration Deadline: March 10, 2023

Register here

Americans with Disabilities Act

Event staff will be glad to assist you with any special needs (i.e., physical, dietary, etc). Please contact Claudia Spanka prior to the live event at +41 61 633 36 45 or claudia.spanka@ibra.net.

General Information

Joint Accreditation Statement

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and the International Bone Research Association (IBRA). Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physician Continuing Medical Education

The Postgraduate Institute for Medicine designates this live activity for a maximum of 9.5 *AMA PRA Category 1 Credit(s)™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest

Postgraduate Institute for Medicine (PIM) requires faculty, planners, and others in control of educational content to disclose all their financial relationships with ineligible companies. All identified conflicts of interest (COI) are thoroughly vetted and mitigated according to PIM policy. PIM is committed to providing its learners with high quality accredited continuing education activities and related materials that promote improvements or quality in healthcare and not a specific proprietary business interest of an ineligible company.

General Information

Educational hours

Theoretical Part on Friday, March 24 - 180 min
(3 *AMA PRA Category 1 Credit(s)TM*)

Practical Part on Saturday, March 25 - 390 min
(6.5 *AMA PRA Category 1 Credit(s)TM*)

Total: 9.5h

Target audience

Recommended for attending physicians/consultants.

Main specialty of the event

Starting with the classification of the injury or deformity, the faculty members share their preferred approach, treatment, and follow-up of cases with advanced difficulty.

Expected total number of participants

24

Educational needs

Dealing with challenging fractures and deformities, consultants request exchange through case discussions both theoretically and through surgeries. Beside state-of-the-art approaches, expert opinions and discussions are highly appreciated to scientifically elaborate improvements when dealing with difficult cases.

Expected educational outcomes

Extend common knowledge and skills and awareness of surgical techniques by exchanging less frequent or demanding cases of orthopedics and traumatology.

General Information

Nature of the event

The course offers ideal conditions for the introduction and consolidation of surgery techniques. Participants learn about current treatment concepts as well as new techniques on internal fixation. On the first day, experienced surgeons provide a theoretical insight into therapy concepts and will focus on clinical anatomy, fracture classification, approaches and last but not least, many case discussions. The workshop on day two permits the attendees to apply the gained skills on fresh specimens under directed instruction.

Methods to promote active learning

Multimedia presentations; time for question & answer sessions and discussion; cadaver workshop with helpful hints shown by faculty members.

International audience

Yes

Main language of the event

The official language is English.

Sunshine Act Reporting

In compliance with federal and state laws, including the Physician Payment Sunshine Act, all attendee meeting expenses will be reported to the U.S. government as in-kind payment such as course fees (shuttle, actual cost of meals). AdvaMed guidelines also prohibit spouses or guests from participating in dinners and/or meal functions.

General Information

Course Format

Since 2011, a multidisciplinary team of trauma surgeons from the University hospital of Cologne, biomechanics from the German Sport University and engineers has been specialized in creating realistic limb injuries of specimens in order to offer surgical training. Together with the University hospital of Cologne the team offers surgeons and orthopaedics practical training courses in which the participants get training on specimens with realistic bony and ligamentous injury patterns. To create these realistic osteoligamentous injuries with intact soft tissues, the team has designed a complex test-bench with multiple technical adaptations.

Compared to established courses on artificial bones or intact specimens, this new concept is designed to challenge advanced surgeons as well.

Before starting the treatment, the participants have to analyze the injury with the help of X-ray and CT imaging. After the fracture classification, the surgeons discuss the approach and realize the surgical treatment. X-ray images help to analyze the result of the treatment of the individual case and it can be discussed by the entire group.

For the indicated body parts elbow and hand, this team is able to create defined, realistic injuries. Further body parts such as shoulder and lower extremities, the team is working constantly to analyze individual sequences of injuries in order to design technical methods and to create realistic injuries.

General Information

Refund Policy

All refunds must be requested in writing to the IBRA Administration Office. If written notification is received 3 weeks prior to the event, a full refund will be given. If written notification is received 10 days prior to the event, a refund of 50% of the registration fee will be given. For later notifications, there will be no refunds. Refunds will not be given for non-attendance.

Please note: The course fee will be fully refunded in case of cancellations due to Corona-related regulations and restrictions imposed by regional or national authorities.

Sponsoring

We thank our sponsors Medartis (material and logistics) and OXOS (material) for contributing in-kind support without which this event would not be possible.

A special thanks to Medartis for providing an unrestricted educational grant.

IBRA would like to make the participants of this course aware that there is a variety of different similar products available on the market beyond the ones provided at this particular event.

General Information

Disclaimer and Waiver

I understand that the material presented in this educational program (the "Program") has been made available under sponsorship of IBRA (International Bone Research Association) for educational purposes only. This material is not intended to represent the only, nor necessarily the best, method or procedure appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement or opinion of the faculty that may be of interest to others.

As a condition of my participation in the Program, I hereby (i) waive any claim I may have against IBRA and its officers, directors, employees, sponsor, agents, or against the presenters or speakers, for reliance on any information presented in the Program; and (ii) release IBRA, its officers, directors, employees, sponsors and agents, as well as the presenters and speakers, from and against any and all liability for damage or injury that may arise from my participation or attendance at the Program.

I further understand and agree that no reproduction of any kind, including photographs, audiotapes and videotapes, may be made of the Program. All property rights in the material presented, including common law copyright, are expressly reserved to the presenter or speaker or to the IBRA.

IBRA is not responsible for expenses incurred by an individual who is not confirmed and for whom space is not available. Costs incurred by the registrant, such as airline or hotel fees or penalties, are the responsibility of the registrant.

I hereby certify that I am correctly vaccinated against the current diseases which could be transmitted during the dissection workshops. I also certify that my personal insurance company will take in charge the possible injuries and complications that may occur during the dissection workshops. I relieve the organizers from their responsibility concerning any injury and complication that may occur during the workshops.

By registering for the Program, I consent to the conditions of participation set forth above.

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-to-date network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

Notes

[illegible]

Notes

A background image of a green leaf with a white grid pattern, used as a template for notes. The grid consists of horizontal and vertical lines forming a series of squares. The leaf's veins are visible, and the overall color is a light green with white lines.

IBRA – a unique international network in research and continuing education

Our aim is to promote the exchange of professional knowledge, provide highly specialized medical training and encourage research as well as new scientific developments.

Core activities

- Global grid of IBRA Training Centers
- Courses, workshops and webinars
- International scholarship program
- Research grants

IBRA Membership – Your future is in your hands!

Take advantage of our innovative hands-on training courses and connect with like-minded experts worldwide.

Membership

IBRA Basic Membership

The gateway to the IBRA affiliation

- Worldwide networking (Members and Training Centers)
- Regular updates on events
- Access to our database of materials and recorded webinars
- Free of charge

IBRA Full Membership

Shaping our organization in various functions

All Basic Membership benefits plus:

- Prioritized access to IBRA research grants and scholarships
- Considerably reduced course fees (50%)
- Voting rights at the General Assembly
- Development opportunities within IBRA (e.g. speaker, course chair, Training Center)
