IBRA International Bone Research Association

Program

IBRA Seminar and Workshop

From the Fingertip to the Wrist – Internal Fixation of the Hand

May 31 – June 1, 2019
Poznań, Poland

Chairman:
Dr. Mariusz Bonczar, Kraków, Poland

Foreword

Szanowni Państwo,

wszelkie uszkodzenia ręki i nadgarstka, stawiają przed operatorami wyzwania natury zarówno medycznej jak i technicznej. Rozwój nowoczesnych technologii i materiałów w tej dziedzinie jest ogromny. Zmieniają się metody postępowania i materiały osteosyntetyczne, a także koncepcje leczenia uzupełniającego. A wszystko to razem stanowi o efekcie końcowym, czyli o pooperacyjnej funkcjonalności ręki pacjenta.

Aby ułatwić państwu wybór i zastosowanie najlepszych metod i materiałów wykorzystywanych w chirurgii ręki, chcemy zorganizować specjalny kurs, na którym grupa doświadczonych referentów omówi aktualne procedury w zaopatrzeniu fraktur ręki i nadgarstka. Po części teoretycznej, przyjdzie kolej na praktyczne ćwiczenia na naturalnych preparatach anatomicznych, w których towarzyszyć nam będzie grupa znakomitych instruktorów.

Nasze kursy, które organizujemy na całym świecie cieszą się wielką popularnością i uznaniem wszystkich uczestników. Po raz kolejny organizujemy taki kurs w Polsce, w Poznaniu. Mamy nadzieję na zainteresowanie i liczny udział Państwa - polskich specjalistów z zakresu chirurgii ręki w tym kursie. Liczymy na owocną i miłą współpracę.

Serdecznie zapraszamy!

Dr.
Mariusz Bonczar

Friday – 31 May, 2019

	Location **City Park Hotel** **Wyspiańskiego 26A, 60-751 Poznań**	
8:00 – 8:45	**Registration**	
8:45 – 9:00	Welcome	*M. Bonczar*
9:00 – 10:30	**Session I:** **Phalanges and Metacarpus** **(90 min)**	
9:00 – 9:15	Intra-articular and extra-articular phalangeal fractures	*L. Romanowski*
9:15 – 9:30	Metacarpal fractures	*W. Satora*
9:30 – 9:45	Corrective procedures	*A. Żyluk*
9:45 – 10:30	Case discussions	
10:30 – 10:45	**Break**	

Friday – 31 May, 2019

10:45 – 12:15	**Session II: Carpus (90 min)**	
10:45 – 11:00	Acute scaphoid fractures	*M. Bonczar*
11:00 – 11:15	Scaphoid non-union	*R. Kebrle*
11:15 – 11:30	Salvage procedures – Proximal row carpectomy and four corner fusion	*W. Hintringer*
11:30 – 12:15	Case discussions	
12:15 – 13:15	**Lunch**	

Friday – 31 May, 2019

13:15 – 15:15	**Session III: Distal Radius & Ulna – Part 1 (120 min)**	
13:15 – 13:30	CT-based concept of radius fracture treatment	*W. Hintringer*
13:30 – 13:45	Fracture-specific plate selection	*W. Hintringer*
13:45 – 14:00	Troublesome lunate facet – what can we do better?	*A. Żyluk*
14:00 – 14:15	Associated ulna fractures	*L. Romanowski*
14:15 – 15:15	Case discussions	
15:15 – 15:30	**Break**	

Friday – 31 May, 2019

15:30 – 17:15	**Session IV: Distal Radius & Ulna – Part 2 (105 min)**	
15:30 – 15:45	Corrective procedures for distal radius – Indications and options for treatment	*R. Kebrle*
15:45 – 16:00	Salvage procedures around the DRUJ	*M. Bonczar*
16:00 – 16:15	Salvage procedures – Radiocarpal and total wrist fusion	*W. Satora*
16:15 – 16:30	Ulna shortening	*W. Hintringer*
16:30 – 17:15	Case discussions	
19:30	**Social Dinner**	

Saturday – 1 June, 2019

8:30 am	**Transportation from the City Park Hotel to the Poznań Lab Institute**
9:00 – 14:15	**LABS (360 min)**
9:00 – 9:15	Product Introduction
9:15 – 10:00	Lab 1: Scaphoid fracture – volar screwing
10:00 – 10:45	Lab 2: Scaphoid fracture – dorsal screwing
10:45 – 11:30	Lab 3: Scaphoid plating
11:30 – 12:15	Lab 4: 4 corner fusion
12:15 – 13:00	**Lunch**
13:00 – 13:30	Lab 5: Distal radius – distal rim fragment (Hook plate)
13.30 – 14.15	Lab 6: Distal radius fracture (FPL plate)
14.15 – 15.00	Lab 7: Distal radius fracture (Dorsal plate)
15.00 – 15.45	Lab 8: Ulna shortening (Ulna plate)
15:45 – 16.00	**Wrap up and conclusions**

General Information

Chairman
Dr. Mariusz Bonczar, Kraków, Poland

Organized by

IBRA - International Bone Research Association, Basel, Switzerland

Registration & Information

IBRA Administration Office
Hochbergerstrasse 60E, CH-4057 Basel
Phone: +41 (0) 61 319 05 05, Fax: +41 (0) 61 319 05 19
info@ibra.net, Website: www.ibra.net

Registration Fees

IBRA Member	EUR 240
Non-Member	EUR 480
Seminar only	EUR 70

Registration Fee includes

May 31: Seminar, Lunch and Coffee Breaks at the City Park Hotel

June 1: Workshop, Lunch and Coffee Breaks at the Poznań Lab

Registration for Workshop only: not possible!

Group Dinner Event: not included

Group Dinner Event

Costs: EUR 25 per person

Registration Deadline: May 20, 2019

Registrations to the Seminar and the Anatomy Workshop are differently limited and are available on a first-come, first-served basis.

General Information

Educational hours

Theoretical Part on Friday, May 31 - 405 min

Practical Part on Saturday, June 1 - 360 min

Total: 12,5h

Target audience

Recommended for senior surgeons and consultants.

Main specialty of the event

An interactive, Seminar and hands-on Workshop, addressing trauma and reconstruction of the hand and wrist with representative cases and discussions. International faculty will apply evidence and present latest innovations in lecture format and surgical demonstration to the participating hand and orthopaedic surgeons.

Expected total number of participants

30

Educational needs

Dealing with challenging fractures and deformities, consultants request exchange through case discussions both theoretically and through surgeries. Beside state-of-the-art approaches, expert opionions and discussions are highly appreciated to scientifically elaborate improvements when dealing with difficult cases.

Expected educational outcomes

Extend common knowledge and skills and awareness of surgical techiques by exchanging less frequent or demanding cases of orthopedics and traumatology.

General Information

Nature of the event

The IBRA advanced course „From the Fingertip to the Wrist – Internal Fixation of the Hand “ offers ideal conditions for the introduction and consolidation of hand surgery technique. Participants will learn about current treatment concepts as well as about new techniques on internal fixation.

Experienced surgeons will provide a theoretical insight into current therapy concepts and will focus on clinical anatomy, fracture classification, approaches and last but not least, many case discussions.

The workshop on day two will permit the attendees to apply the gained skills on fresh specimens under directed instruction

Methods to promote active learning

Multimedia presentations; time for question & answer sessions and discussion; cadaver workshop with tips & tricks shown by faculty members.

International audience

Yes

Main language of the event

The official event language is English.

SIEMENS Healthineers

Polish Society of Surgery for the Hand (PTChR

Polskie Towarzystwo Chirurgii Ręki (PTChR) zrzesza lekarzy dla których schorzenia i obrażenia kończyny górnej to pasja, hobby oraz wyzwanie terapeutyczne.

Siedzibą Polskiego Towarzystwa Chirurgii Ręki jest miasto Poznań.

Obecnym Prezesem Polskiego Towarzystwa Chirurgii Ręki jest dr n. med. Mariusz Bonczar z miasta Krakowa.

W Polsce chirurgią ręki zajmują się Ortopedzi, Chirurdzy Ogólni oraz Chirurdzy Plastyczni, ta różnorodność wpływa bardzo korzystnie na rozwój tej dziedziny medycyny.

Wyszkolenie, umiejętności i wiedza z zakresu chirurgii ręki polskich specjalistów odpowiada standardom europejskim i światowym a zabiegi operacyjne wykonywane w wielu ośrodkach są w pełni najnowocześniejszymi osiągnięciami i spełniają wszystkie najwyższe standardy.

IBRA International Bone Research Association

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-todate network for the exchange of experience and knowledge in applied bone and tissue research.

History
IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support
IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education
IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.
